Subject : Twitter in Russia

Dears Russian Twitter users,

I'm writing you to give you an update on the current situation. As you may know these days many services are closing in your country and unfortunately it will happen to Twitter from this Monday.

But you can still have access to Twitter by going to the Dark Web. The Dark Web is a hidden part of the internet that you can only reach by using an « Onion » service, here you will use the web browser « Tor ». You just have to search « Tor » on your usual search engine and download it.

I know that some of you will be disappointed, but know that it is beyond our control, our website has been blocked by your country's government.

I hope that you'll still use our service in the future and we're going to do our best to restore the access to our site.

I apologised again for the inconvenience.

Best regards,

Amanda HUGGINKISS,

Vice CEO of Twitter Overseas.
